

Huntoon Property

Township 6-7, Range 10-11 W2

The Huntoon property is located just north of the Midale oil pool in Southeastern Saskatchewan and includes 26 active wells, two facilities with one disposal well, and ~2,000 gross acres of PNG rights. This property has upside in several formations, with up to twenty additional Midale locations, five Frobisher locations and seven Bakken locations. The Birdbear, Duperow and Red River formations are also prospective throughout the area.
